ExportResponse\_Of\_Memberships.V2.ExportInvoice...

Represents export API response.

{ }

Name	Required	Type	Description
hasMore	true	boolean	Indicates whether there is more data. If true means the current request is part of another request, new continuation token means there is still more data in the export, and the client should wait for (minutes) before sending the next request.
continueFrom	true	string	Continuation token for the export operation. Should be used as a parameter of the next request.
data	true	<a href="#">Memberships.V2.ExportResponse</a>	The collection of data, usually sorted based on modification date.
