The request has succeeded

application/json

ExportResponse.Of\_CustomerInteractions.V2.Exports

Represents export API response.

{ }

Name	Required	Type	Description

hasMore	true	boolean	Indicates whether there is more data available. If true, it means the current request was part of a continuation and a new continuation token is provided. If false, it means there is no more data to export, and the user should wait for a few minutes before making another request.
continueFrom	true	string	Continuation token for the export operation. It should be used as a parameter of the next request.
data	true	<a href="#">CustomerInteractions...</a>	The collection of customer interactions, usually sorted based on modification date.

## default

DEFAULT - JSON

 Copy

```
{
  "hasMore": true,
  "continueFrom": "string",
  "data": [
    {
      "technicianId": 0,
      "jobId": 0,
      "rating": 0,
      "active": true,
      "createdOn": "string",
      "modifiedOn": "string"
    }
  ]
}
```

## Response: 400 Bad Request

The request cannot be processed, check validation errors or request format

application/json

## ApiErrorResponse

Detailed error response, following RFC 7807 recommendations (<https://tools.ietf.org/html/rfc7807>).

{ }
